ASTON COURT

Offering timeless designs to be enjoyed for a lifetime, the value of Aston Court is found in our quality, craftsmanship and personal service. With a nod to the past and time-honored techniques, we offer authentically designed traditional reproduction furniture. Our heirloom quality English reproduction furnishings feature exquisite, handcrafted detail and timeless design. We offer a small assortment of stunning styles from the formal 18th Century renowned English cabinetmakers as well as casual hand-planed designs with a European farmhouse flair.

We source our entire collection from one English owned factory that has been perfecting their manufacturing processes for nearly 35 years. Our high end, luxury furniture line is hand-crafted using the finest crotch mahogany and burls. Adhering to all traditional methods of English construction, our dedicated craftsmen use a variety of the finest and most beautiful woods and veneers sourced worldwide for their distinct beauty and characteristics. Our timeless designs, hand selected materials and tedious attention to detail result in pieces of heirloom quality that will endure and gracefully age over generations to come.
